

A.S.A.P. BAIT METHOD

- No Preparation Needed
- No Vacating of Premises
- Fast Acting Results
- Indoor & Outdoor
- Effective in hard to reach areas
- Lasts Longer
- Fewer Applications Needed
- 100% Elimination
- Kills all Stages of Roaches
- One infected roach kills others
- Attracts roaches to the bait
- Can be used around appliances, computers, etc

VS

LIQUID CHEMICALS

- Preparation Necessary
- Complicated Formula
- Must Vacate Premises up to 3 hours
- Limited Area Usage
- Difficult to Apply
- Loses effectiveness quickly
- Must be applied frequently
- Does not kill all stages of roaches
- Repels Roaches (puts them on the run)
- Large infestations need re-treatment
- Known to be roach resistant
- Cannot be used around appliances, computers, etc
