A.S.A.P.'S OPTIONAL Preparation for Bed Bug Treatments

Most people do not realize how important preparation is before a bed bug service. In fact improper preparation in homes is the #1 cause of failure for bed bugs treatments. Yet 5% of people who need a bed bug treatment at home attempt to perform the preparation on their own to reduce treatment costs. As an additional service, A.S.A.P. Inc. offers bedbug preparation services to help ensure that the bed bug treatments are as effective as possible in the elimination of bed bugs.

Our services include:

- **Moving small items off floors**
- **Any food items placing them in the kitchen**
- **Removing wall outlet and plate covers**
- **Placing luggage and backpacks against the wall for inspection/treatment.**
- **Strip all beds**
- **Remove all items from nightstands, dressers, and closets and placing them in a large plastic bag.**
- **Place mattress against wall to be treated around the seams and tufts**
- **Move furniture 2-3 feet from wall**
- **Removing pictures and wall hangings from the wall**

Washing and vacuuming is NOT included. Residents must carefully follow the directions from A.S.A.P. to prevent the reintroduction of bed bugs after treatment.

Why risk going through all of this hassle more than once? Do it right the first time!

Although our preparation service is carefully designed to increase the probability that the bedbugs will be eliminated from your property, there is no guaranty that the treatment(s) will be 100% effective because the nature of bed bugs and all the many variables involved.

The charge for this additional service by A.S.A.P. is based upon the size of the area to be treated, the extent of work required, and the time it takes to complete. The minimum charge is \$200.00.
